

ELECTRICAL ESTIMATOR

Job Summary

Arcadian Projects Inc. is a Kitchener based contractor, involved in a number of construction projects and are looking for an experienced Electrical Estimator to join our team of professionals. The successful candidate will have comprehensive knowledge reviewing and quoting small and large commercial, renewable and industrial projects. Previous experience within the Energy market is considered an asset.

As an Electrical Estimator you will coordinate with clients, sub-contractors, and suppliers and leverage your construction industry knowledge to accurately develop competitive bids to win projects.

To truly excel in this role you are able to partner and communicate effectively with both internal and external stakeholders to gather information to plan the job, evaluate risk and put out a profitable bid. As an experienced Estimator you understand that you are often required to work within tight timelines and manage multiple priorities but with the pressure also come the reward of coming in first!

As Electrical Estimator you will be asked to do the following:

- Review and understand job specifications and drawings and follow through with estimating process to develop competitive bids.
- Conduct site/tender walkthrough to cross reference drawings to avoid site interferences and identify proactive solutions.
- Produce material and labour take-off through to develop accurate quotations.
- Communicate with client to gather information, clarify specifications, wording, etc.
- Coordinate with sub-contractors and suppliers to obtain pricing to include within the final quotation provided to client.
- Participate in closing the bid including bid review meetings, etc.
- Contract review and closing.
- Participate in hand over meeting with Project management team after award.

Qualifications

- Minimum five (5) years of Estimating experience within the electrical construction industry
- Electrical Engineering degree or diploma or related education and/or trade experience
- Exceptional organizational Skills
- Good knowledge of sub trades
- Trade Certification and/or CET, or equivalent industry experience
- Good familiarity with MS Excel, Word
- Experience within the energy market is beneficial

We Offer

- Competitive compensation and benefits package with RRSP matching
- Opportunities for growth and development
- An open and collaborative work environment
